Dear Chief Justice and Fellow Justices:

I am enclosing a copy of my new book, “It Takes a Revolution: Forget the Scandal Industry!,” which critically focuses on the compromised, if not presently corrupt state of the federal judiciary, including the Supreme Court, which has largely abandoned not just the Constitution, but the American people in general.

It is hoped that you will read my book and “take it to heart,” as my grandmother Freda Klayman used to tell her grandson.

Without a federal judiciary that will stand up for and truly represent the vital interests of the American people, protect them from the tyranny of the other two branches of government, as well as those on the federal bench who would pervert the rule of law, the citizenry is left defenseless.

January 6, 2021, was largely the result of your failing to do your job, as the people, most of them peaceful, rose up in desperation when even President Trump’s own justices refused to hear a well brought suit by the Attorney General of Texas. This was the “final straw.”

Jefferson, as written in my book, predicted as much, and even eventually worse, the result of an unelected federal judiciary unaccountable to the people.

“It Takes a Revolution: Forget the Scandal Industry!” calls for a peaceful and legal revolution. If this does not succeed, others, not yours truly, will likely make Jefferson’s prophesy, as set forth in my book, sadly and tragically a reality.

It is up to you to uphold your oath of office and play a major role in preventing this. In recent months, only Justice Thomas seems to understand the unaddressed tyranny which our nation faces from many quarters of our government and society, which is regrettably and dangerously at play.

I am sending my book to you in good faith, with the optimistic hope that the federal judiciary will now, in these times of crisis, finally see the light with an epiphany to represent the people and not primarily its own political and other interests.

God bless you and may Divine Providence guide us through this critical time period in American history, as it did with our Founding Fathers and the colonies.

Sincerely,

Larry Klayman, Esq.
